

Application

Sanitary ball valves are used in stainless steel piping systems for isolation, either manually or automatically operated. The full port design with zero flow restriction makes it an optimum choice for viscous or particulate liquids.

Working Principle

A precision ball with a full port is positioned inside the valve body between two flanges and two PTFE valve seats. The 90° rotation of the valve stem, through the handle is transferred to the ball thereby opening or closing the valve.

Standard Design

The valve consists of a valve body, two flanges, PTFE valve seats, EPDM O'Rings, ball, stem and a handle. All Seats and Seals are made from FDA approved materials.

The valve body, flanges and ball are made of forged 316L stainless steel which ensures non porous, smooth and dimensionally stable construction.

The valve is designed to maintain a full flow rate, with a minimum pressure drop and it is fully drainable. A Bottom entry, precision machined stem with a live loaded PTFE thrust washer ensures a smooth rotation at various temperatures and pressure conditions.

Available Sizes

1/2", 3/4"

End connections : Sanitary Clamp, Butt - Weld, or others on request.

Fractional Ball Valve

51 Series

TECHNICAL SPECIFICATIONS :

Material :

Product wetted steel parts.....AISI 316L
Other steel parts.....AISI 304

FDA Seals :

Valve Seat.....PTFE
O'ring.....EPDM
Cavity filler (optional).....PTFE
*Other Material available upon request

Nominal Pressure :

Maximum product pressure..... 200 PSI maximum (14 Bars)
Test pressure 235 PSI (16 Bars)
(Leakage test according to BS EN 12266-1)

Temperature Range :..... -60° Degrees Fahrenheit to +300° Degrees Fahrenheit
*Other seal material available for higher temperatures

Surface Finish :

Surface in contact with product..... Ra <= 25 µ in (Grit 220g)
Optional..... Ra <= 15 µ in (Grit 320g)
*Electropolishing available upon request.

Connections Sanitary Clamp (ISO 2852 / BS 4825-3)
Optional..... Butt Weld (ISO 2037 / BS 4825-01)
Other connections on request

Cavity fillers on request
* Consult the factory
for torque values with
cavity fillers

Torque values (for rotating the valve stem)

Size	ft.lb	Nm
1/2"	5.5	7.2
3/4"	6.0	8.0
